

Tale of Ministerial Orgies On Customs Cruiser 'Margaret' False

If It Will Help Alberta the Bulletin Is for It

Edmonton Bulletin

FINAL EDITION

VOL. XVII., No. 55.

EDMONTON, ALBERTA.—Alberta's Oldest Newspaper —THURSDAY, AUGUST 5, 1926.

PRICE FIVE CENTS

Since we read that movie stars have been dodging the income tax, somehow they seem more human.

A pearl necklace, a woman's going home. It'll be the treat for a middle-aged fat man to feel he's in the fashion.

A rural chief of police says the rise of the gangster and the woodsman's law will result in children growing up free from crime. In other words, start at the bottom.

Woman asks for divorce because her husband called her names. It's a little difficult to meet such a person.

Skinny men get them. Mayday shafts. Advertising announces so do skinny men.

A farmer's wife shot her husband in mistake, thinking him of blackguards. Seems to have considered him guilty next.

Phantom adopts four orphans. Rabbits according to the headline. Maybe she has a good reason for making them her babies.

A writer of reminiscences tells us the most. Roosevelt was a good man, though he drank in a glass of milk. Seems a poor excuse for wanting to be drunk.

Police are trying to identify a skeleton found in the bush at the end of your driveway. Let's hope it didn't you. They're glad to hear from you.

Man is fined for Driving Auto Through Barber Shop Window, a headline says. Perhaps he didn't know it was a barber shop.

A judge has ruled that blasting is not a criminal offense. Always thought it was evidence of unscrupulous behavior became a non-art.

Einstein's theory is developing into a new one. He now theorizes that only five living scientists are capable of understanding and that any reporter can explain in a paragraph.

We read that Japanese do not give up their street car seats to women. Women remain right abreast of our civilization.

"Denver boasts a radio station one mile above sea level." Don't see why any city could boast about a radio station.

A NEW ENCYCLOPEDIA

Investment is the only way to make your money grow.

But remember, wise men will tell you so.

There is no investment in this land, but hates

That poor nitwit and imbecile the world over.

Nowhere ever yet, they state, grew

Only in the choice of who invests.

So if you want to go to square, for goodness sake go to him.

Don't be afraid of wildcat schemes and money-grabbing.

Or course, you may agree with all such sage advice, and yet a

Find that you don't recognize a really certain beat.

And so I give you a hint, to help

you any time.

To reap the harvest you deserve, it

It's but a speculation if your horse

Is a sure and safe investment if

he's a true one to run in.

Almanac

(Continued)

Thursday, Aug. 5.—Golden Eggs end when first reformer suggests we have a 25-cent tax.

"To the pure, they say, all things are pure; But when he's proved the but how they act, we're pretty sure."

The pure think all things pure.—Dante.

DAILY HOSPODE

Wetaskiwin, Alta.—Today need not fear literary criticism. Genghis Khan, the last bastion of the Mongols, should cultivate regular habits as the result of a recent visit to the city. The great conqueror associate with rakes. Plans are being made to complain about the weather.

HOUSEHOLD HINTS

Cod-liver oil may be served with dinner, but it does have d'oeuvre. Night watches should be avoided, as they prevent sleeping. Excess fat may be removed from soup with French cleaver.

Story of Joy Ride on the "Margaret" Baseless, Says R. L. Calder

Exclusive to Bulletin

QUEBEC, Aug. 5.—Coming with the shock of a dash of icy water in the face, the categorical statement of L. Laporte, C. O. government counsel, that there was any truth whatever in the sensational allegations of wild orgies and ministerial joy rides on the customs cruiser Margaret, has left Hon. Ernest Laporte, his follower, A. J. Doucet, former Conservative member for Kent, N. B., gasping and vainly looking for an excuse to bolster up their campaign canards.

Although Mr. Laporte had insisted on the truth of his charges when the latter made his unwarranted and impudent speech, he has appealed to Hon. Ernest Laporte to prevent a repetition of the statements of the truth the Conservative leader remained silent.

Mr. Laporte's silence can be taken as an official endorsement of the charges made by Doucet.

The morning's initials and other documents have been made after full investigation. Leaves 200,000 copies of the report to Mr. Laporte, and Sir Francis Lemire, president of the Bank of Montreal, to the Bank of Canada on Saturday morning to allow of the production of the report to Ottawa will be imminent report to Ottawa will be imminent.

Mr. Laporte has today ridiculed the stories of Doucet, stating that

SHIP SINKS: 26 LOSSES

DR. J. C. BROWN

Twenty-two persons were drowned last night when the ship they were carrying freight and passengers sank in the Atlantic Ocean, colliding with a position near the Bay of Biscay in the darkness and sank.

TODAY'S ODDEST NEWS

Exclusive to Bulletin

Associated Press

NEW YORK, Aug. 5.—Holding her stockings up at 14th street, just off Fifth avenue, cost Miss Elizabeth White \$7500,000.

She was unable to roll them in the workshop.

Miss White, who is a widow, could not roll them in public, the court ruled.

"The stockings are too tight," she said.

Miss White, who has been

one of the most popular persons of three from each of the provincial constituencies was also elected.

The Way Out.

In Kenora-Rainy River constituency the Liberals, the Labor party and the Progressives are hatching the same candidate.

That is one riding in which the forward-looking section of the electorate refuse to shatter their strength in a three-cornered or a four-cornered fight and hand the seat over to a Meighen candidate polling only a minority vote.

The Liberals, Laborites and Progressives of Kenora-Rainy River have shown these elements in other Western ridings how they can save themselves from the calamity of a Meighen Government—and the only way they can be sure of doing that:

"Protecting" the Farmer.

The farmers of Western Canada should find it interesting, and also profitable, to take note of the attempts that are being made by United States farmers to collect the benefits which were supposed to come their way from a tariff policy of the kind Mr. Meighen proposes to put in force in October.

The United States tariff is rich in promises of high prices and good times for the farmers of the Republic. They are "protected" to the tune of 42¢ a bushel on wheat, 12¢ a pound on butter, and corresponding rates on other products.

These duties were written into the tariff bill to make the farmer feel that he was the beneficiary of a protective policy when it was being passed around. He was told just as Mr. Meighen is telling the Canadian Farmer now—that he would profit as much as any other class by the exclusion of foreign produce from his market.

But the U. S. farmer has found out that the promised benefits are not arriving as he expected. The protective policy has been operated to keep the farmer from going on the warpath when the duties on industrial products were boosted to the limit—and the prices he had to pay for them went up accordingly. A heavily increased cost of doing business is the net return to him from the protective policy.

The United States farmer has discovered that when he gets any commodity, a part of which has to be sold abroad, that surplus bears down the price at home before the export profit begins, for the exported margin has to be sold at the world price and against world competition.

A convention of corn belt farmers was held in Des Moines, Iowa, a few days ago. The delegates, despatched by G division, who went down from Edmonton, despatched later from the camp near Calgary and made their calls on the Saskatchewan broke on Monday afternoon and is still down. Crossing is now done by boat.

The Battledore News reports the arrival there of small numbers of locusts.

The annual convention in Moose Mountain district resulted in re-election of J. G. Turritt by a vote of 1 over J. H. Dunkle and of two to one over D. Pierce.

Through passenger train on the C.P.R. to Vancouver, the convention reached the Pacific Coast, Montréal and \$35 from Toronto.

Delegates, however, paid \$100 each, and amount was reduced by C.P.R. to \$80. The rate of taxation is a cent a bushel.

Delegates for the members of Steele's scoundrel crew arrived by last mail. It is said that some members of the former gang returned to the U. S. to collect their claims for compensation on account of damage to horses are settled.

THIRTY YEARS AGO

From the Edmonton Bulletin, Saturday, July 21, 1894.

More than twice the amount voted for the removal of the Canadian Cess from Montana has been sent to the Canadian government by the citizens of Alberta and Mackay and others a resolution was passed expressing their desire to do so no more.

Alberta and Mackay, Wyoming and Idaho—Shoshonean Metalum arrived from Lac La Biche last Friday.

The only news now at work at Miners' flats are A. O. and W. G. Morris, who are engaged in getting the Ontario and Burke's seas in under water above the fort, owing to the rise in the river.

TWENTY YEARS AGO

From the Edmonton Bulletin, Saturday, Aug. 4, 1906.

Mr. F. W. Moore stated here that the G.T.P.C. would have a branch line into Calgary about the time of next fall.

The Douglas and Fort settlers have disposed of their grain in Strathcona to T. R. Tipton.

TEN YEARS AGO

From the Morning Bulletin, Saturday, Aug. 5, 1916.

At a pastoral meeting held in McDowell church hall, Mr. J. H. McNaughton, Mr. J. H. MacKay and others a resolution was passed expressing their desire to do so no more.

Such a policy would have recovered Thiamann Verdin is again the storm centre on the western front.

Such a policy would lead to the industrialization of the nation at the expense of the farmers, subordinating our agriculture to our industry in order that the latter might compete more favorably with the rest of the world.

In other words, the U. S. farmers are being exploited for the benefit of the industrialists. They are not getting their share of the benefits of the protective policy they were induced to accept. And hence the export of surplus of authority has become a relative source of discontent. It is disastrous to the industrialists. Hence the Government refuses to try the expedient.

Having given their support to a protective policy aimed at industrial development, the U. S. farmers now find that they are the victims of that policy. And hence the export of authority has become a relative source of discontent. It is disastrous to the industrialists. Hence the Government refuses to try the expedient.

It is the same kind of industrial policy that Mr. Meighen is now trying to put over the farmers of Canada, with the same kind of assurances that they would share in the resultant benefits. If they fall into the trap it will be because they refuse to gather wisdom from the experience of the farmers of the United States.

NO BONEY-GATHERER

When the bees are in the clover,
And a blue sky's bending over
Then I'm glad I'm not a bee.
Just as far as I can see!
When the blossoms are suggesting
All the honey in the world,
Though it's time to gather honey
Then I'm glad I'm not a bee.

There are some who fit for money
There are spinsters all around them
Which they never pause to see.
They're not the ones I'm thinking of.
But when summer spills her beauty
And the bees are in the clover,
Then I'm glad I'm not a bee.

Oh, I think it is much better
Not to be a honey-gatherer;
I've been a honey-gatherer here
Underneath this shiny tree.
Let the honey be kept working.
How I'd like to be a honey-shirker.
In this lovely summer weather
I don't want to be a bee.

DR. CRANE'S EDITORIAL

SENTIMENT AND SANITATION

A gentleman in California who knew some of the original characters in Helen Allard Jackson's "Ragged," writes to me from time to time concerning the life of the Indians, particularly the Modoc. He says that the Modoc, a race where the Indians, Alans and Modocs are ejected from the house where they are living because the cause of a host of vicious brawls.

The Indians, he says, are not because of spite on the part of the landlord.

The house, he says, was kept in such a filthy condition that it was impossible to live in it.

He thinks that the Indians are as sanitary and frugal as the unskilled as any other.

Those who live in slums are the ones who need to be educated in the art of sanitation.

Health conditions, however, are the strain on the eyes and bettering the condition of health were first introduced into England they were attacked by the literary men of the day, who were not only shocked but also repelled by the idea of what was associated with the romantic past.

Even today, the interest of sentiment and new improvements seem to be destroying it.

Ever the past holds the interest of sentiment and new improvements seem to be destroying it.

It is thought of in terms of moonlight and romance playing fondly "La Boheme," a beautiful scene with a man and a woman.

Former U. S. Ambassador Alexander P. Moore, who has been here recently, says that American ladies live more luxuriously and possess greater conveniences than the greatest Spanish.

The mundanities of running water, bath, toilet, etc., are not mentioned.

Former U. S. Ambassador Alexander P. Moore, who has been here recently, says that American ladies live more luxuriously and possess greater conveniences than the greatest Spanish.

EDMONTON'S OWN INDUSTRY

---and an investment opportunity which should be retained at home

ALBERTA, which already produces a fourth of Canada's grain crop, also supplies the greater part of Canada's petroleum production.

Alberta last year grew a twentieth of the world's wheat. Who can foretell how very soon she may be producing a twentieth of the world's petroleum?

For Geologists say that Alberta is on the eve of oil production unparalleled in history. Surely the future for this province as a producer of petroleum is promising.

Yet at the moment Alberta is paying out millions of dollars for gasoline and petroleum products and Canada's gasoline bill, paid to foreign refineries, reaches the staggering total of \$120,000,000.

And this with billions of dollars worth of the precious fluid awaiting but to be brought up from under Alberta's rocks!

Canadians complain that many of this country's natural resources have been exploited by foreign capital. This is Alberta's opportunity to invest in a great basic industry with immense profit potentialities.

+Cracking Plant For Treating Alberta Crude

Prof. Gustav Egloff of the Universal Oil Products Company Research Laboratories, in a lecture before the American Institute of Mining and Metallurgical Engineers, said emphatically upon the wonderful economy and value of the "Cracking Plant" in the production of high grade anti-knock Gasoline from crude oil.

He claimed, and showed by tests and actual production in many fields, that the Smack-over process, from 50 to 70 per cent gas, is extracted from the crude and showned that from the Kevin Sinch oil crude this percentage is always obtainable. The heavier crude from the Smack-over field is mentioned as showing "the wonderful potentialities of this process."

One of the wonder oil fields of the United States is the Smack-over Arkansas, which is still producing 180,000 barrels per day, of which 36,000 barrels (December 31, 1925), is heavy oil. This oil, of asphaltic characteristics, is not very satisfactory as a base oil due to its emulsified water, high sulphur content and other properties.

"The general inquiry when a new Smack-over well was brought in 'What will they do with it after they get it?'

"One leading oil man stated that Smack-over 'Heavy crude' had everything in it it should not have for a refiner! Yet, despite these pessimistic statements, the heavy oil, which is being commercially cracked into over 50% gasoline. Smack-over heavy crude oil production of 163,000 barrels daily can be converted into \$1,500 barrels of gasoline, per day, by the cracking process."

The results achieved surpass those which will be accomplished by the Cracking Plant in treating the crude oil from the Wainwright field, as the chemical composition and gravity of the oils are almost identical.

"The Dubbs Process is so flexible that it converts any type of oil without change of principles or equipment into gasoline. Commercial plants are now in operation in every course of construction in various parts of the world, such as Japan, Borneo, Java, and Dutch West Indies, Australia, Rumania, and many parts of the United States."

Refineries Distributors Limited

Capitalization ~ \$1,000,000

90,000 Shares, Preferred, \$10 Par

100,000 " Common, \$1 "

Present Offering: The balance of a Block of 30,000 Preferred Shares at Par each Preferred Share carrying a Bonus of One Common Share.

DIRECTORS:

JOHN L. MERCER, Edmonton, Alberta, President.

H. A. STEWART, Vancouver B.C., Vice-President and Managing Director.

M. C. HAMMOND, Edmonton, Alberta.

J. C. C. BREMNER, Clover Bar, Alberta.

ROBERT McDONALD, Edmonton, Alberta.

W. A. TRIMBLE, Edmonton, Alberta, Secretary-Treasurer.

Marketing Company Has Contract with Refinery

Refineries Distributors Ltd., the marketing company, have a contract from the refining company which guarantees the marketing company \$5 per gallon clear of freight delivered at distributing points throughout the country. That is 5¢ under tank wagon prices at these points. We pay our agents 1½% commission and estimate a further 1½¢ for office and overhead—leaving 3¢ per gallon clear profit to the marketing company.

As an example of the revenue to be derived from this source, figuring on the basis of 1000 barrels per day throughout, half of which would be fuel oil, leaving 500 barrels per day for distribution by the marketing company, 500×35 equals 17,500 gals x 3¢ per gal equals \$525.00 per day net profit or \$16,250.00 net profit per year. This amount of oil can be distributed by ten bulk stations, and already we have more than this number established at a cost of \$10,000.

We have had to refuse many orders for products from other points, thus the need for expansion. In addition to this source of revenue the marketing company will build a cracking plant that will give us an additional 17,500 gals per day of straight gasoline, using Wainwright crude.

The Company is fortunate in having secured as General Superintendent of the plant, Mr. M. L. Berryman, formerly Chief Chemist and General Superintendent of some of the principal plants in the South such as the Gulf Refining Co., The Texas Company, Mexican Petroleum Co., and others. He was one of the first men in charge of a Cracking Plant in the United States. His experience has been such that he will be able to operate the refining and cracking plants economically to the very best advantage. He is a highly capable executive. He is most optimistic regarding the present pro-

freight being available from this source alone at the present market prices.

Also to erect a "Cracking Plant at a cost of \$150,000. This will have a capacity of 1,000 bbls. of crude oil and will produce from this a minimum of 500 bbls. of anti-knock gasoline every twenty-four hours. At 35 gallons to the barrel, this shows a total output of 17,500 gallons a day.

Apart from the individual profit of the cracking plant, with working at capacity, the output marketed through the service stations shows a distributing profit of \$325.00 per day net. This alone will show a handsome dividend on a \$1,000,000.00 capitalization in addition to the 8% per annum on the preferred shares.

Detailed figures will show this enterprise to be one of the very highest potentiality for profit. We shall be pleased to send a digest of the situation, based upon actual conditions, to the earnest investor.

In the meantime the soundings of the proposition will appeal to the investor who realizes that these pioneer enterprises in industry based directly upon natural resources, reap the rich reward.

Information Coupon

TO THE REFINERIES DISTRIBUTORS LIMITED,
208 McLeod Building, Edmonton, Alberta.

Please furnish me with complete information regarding "Refineries Distributors Limited." It is understood that there is no obligation implied.

Name

Address

"PEP" is the appropriate name given to the gasoline product of Alberta Refineries Limited, produced from the crude oil of the Wainwright field.

"PEP" has justified its name as a lively, volatile, anti-knock gasoline which motorists insist upon after once having used it. Today the present "PEP" plant is inadequate for the demand.

MARKETS, GRAIN, FINANCIAL

CATTLE SLUMP; POOR DEMAND

EDMONTON STOCKYARDING Aug. 4.—Report for month of July by Edmonton Livestock Branch—Total cattle handled 1,000; total value stated of \$2,877 cattle, 2,244 calves, 6,446 hogs and 2,074 lambs. Total receipts for the corresponding period of last year of 2,426 cattle, 2,244 calves, 6,446 hogs and 2,074 lambs.

Due to the continued dry weather the market has been very poor for two weeks experienced a very heavy run of cattle with no much demand. The market was at the end of the month near about the same as the market. This coupled with a demand for hogs near about the market the market very badly. Expended on the market were 1,000 cattle. The month opened with offerings from many ranches, the market being steady with the close of June. At this period hot steers were offered at \$1.25 to \$1.50, while cold and ewes 40¢ to 50¢, but as the months went on the market became very bad, and the closing month saw the market at \$1.00 to \$1.25. Steers were selling at \$1.50 to \$1.60 with a very few sales. The market was then 40¢ to 50¢. Hogs were selling from \$2.00 down and as low as 40¢. Lambs were offered at \$1.25 to \$1.50 with a few up to 2.00. Exceptional hot choices were bringing 4.25¢, but others were bringing 1.25¢. The market was good to closing cans at the end of the month. The market was up to 40¢ with the common to medium at 2.00 to 2.50.

The grain and feeder market, in sympathy with the butcher market, was very poor. The market for the months and medium and common kinds of steers at times were holding at 40¢ to 50¢, but were mostly lower values. At the beginning of the month the market was up to 40¢ to 50¢, but gradually declined to the basic point of 2.00. The market was then 40¢ to 50¢, whereas good steers were offered at 2.50 to 3.00. The market was then 4.00 to 4.75, the latter end of the month and the plainest kinds were selling from 3.25 down to 2.00. The market was then 40¢ to 50¢, and between these fair stable, the bulk of the good to medium were offered at 2.00 to 2.50. The market was then 40¢ to 50¢, practically unsaleable with the commonest kinds at 2.00 to 2.50. The market was then 40¢ to 50¢, common premium. No. 2 was offered at 2.00 to 2.50, and the market was then 40¢ to 50¢ with a bigger cut on roughs and No. 2 was 2.00 to 2.50.

The hog market, due to the fact that the market was very poor, had little or no feeders arriving, hogs very badly. At the beginning of the month the market was offered at 14.25 to 14.50¢ off ears, but a very few sales were made. The market closing week of the month was smooths sold at 14.00 to 14.25¢, hogs bringing 1.25¢ to 1.50¢, common premium. No. 2 was offered at 14.00 to 14.25¢, and the market was then 14.00 to 14.25¢.

Hog Market Breaks. The hog market, due to the fact that the market was very poor, had little or no feeders arriving, hogs very badly. At the beginning of the month the market was offered at 14.25 to 14.50¢ off ears, but a very few sales were made. The market closing week of the month was smooths sold at 14.00 to 14.25¢, hogs bringing 1.25¢ to 1.50¢, common premium. No. 2 was offered at 14.00 to 14.25¢, and the market was then 14.00 to 14.25¢.

Montreal Stock Market. The market had a sharp reaction during the month, due to the choice lambs sold from 10.00 to 12.00¢, lambs sold from 10.00 to 12.00¢, yearlings 10.00 to 12.00¢, lambs 8.00 to 10.00¢, and the plainest kinds of lambs 6.00 to 8.00¢, able to get.

Calgary Livestock. Canadian Press—Report for month of July—Receipts 1,000 cattle, 1,000 calves, 1,000 hogs and 200 sheep and lambs.

The market for the months and grass cattle is extremely limited. Trading is slow and meager.

Hogs unchanged; thick smooths \$12.25, market selects 10 per cent premium.

Lambs, fair to good 11.00 to 12.00¢, good to fair 10.00 to 11.00¢.

Winnipeg Market. Canadian Press—Report for month of July—Receipts 1,000 cattle and calves, 1,000 hogs and 200 sheep and lambs.

The market for the months and grass cattle is extremely limited. Trading is slow and meager.

Hogs unchanged; thick smooths \$12.25, market selects 10 per cent premium.

Lambs, fair to good 11.00 to 12.00¢, good to fair 10.00 to 11.00¢.

Toronto Market. Canadian Press—Report for month of July—Receipts 1,000 cattle and calves, 1,000 hogs and 200 sheep and lambs.
